

Welcome New 6A!

Great Hope for Enagic Business in Mexico

[Mexico]

Jose Leopoldo Frias Gonzalez

In July of 2015, Jose Leopoldo Frias Gonzalez purchased a Leveluk unit and began promoting Kangen Water. Within a year, he managed to reach the rank of 6A and has now become one of the greatest hopes for the future of the Enagic business in Mexico.

Before his encounter with Enagic, Jose was working as a health coach and also promoted alkaline foods. He had been conducting research on the benefits of alkaline water when he met and befriended someone who introduced him to Kangen Water. Once he started drinking Kangen Water, he noticed positive effects on his general health and improved results in his marathon performance. After experiencing all of these benefits, he began to put further effort into distributing and with the slogan, "First become healthy and happy then start your business," Jose is now diligently building his team and promoting Kangen Water.

Congratulations! 3 Branches reach Oct Goal! Branches reaching monthly goal

True Pleasure of Enagic Business is Sharing Joy of Empowerment!

(Top Left) Kraig/5A & Chad/6A & (Bottom Left) Hilary & Veronica/6A2-2 Quinain [Philippines]

The Quinain family is truly an Enagic family. Mother, Veronica (6A2-2), eldest son, Chad (6A), second son, Kraig (5A) and even some other relatives are involved in the Enagic business. Daughter, and youngest member of the family, Hilary, who although at only 14 years of age may be too young to join the business, definitely already has a great foundation for her future.

Veronica began her business in February of 2013. When she encountered an opportunity to help people improve their health, she considered it a privilege that could not possibly be passed up and quickly joined Enagic. As she had experience teaching people about cooking and nutrition, she set her eyes on Enagic after gaining a thorough understanding of the benefits that Kangen Water provides.

The style in which Veronica conducts her business is quite simple: spread the wonders of Kangen Water and the joy it brings to people. The members of her team, Team Catribu, share her belief and work hard every day to encourage the intake of Kangen Water to others. With her honest approach to the business, she steadily climbed up the ranks and reached 6A in a little over a year and 6A2-2 in just under 2 years. Her goal to achieve the rank of 6A2-3 by the next Global Convention in March of next year is surely within reach. (Cont'd to P.5)

Mr. Ohshiro's Birthday Celebration

2017 E8PA Global Convention in Okinawa, Japan

Are YOU ready to celebrate the **2017 E8PA Global Convention in Okinawa, Japan?**
Come experience the wonder of Enagic on
March 16th and 17th as we share moments in the birthplace of Enagic : **Okinawa, Japan.**

- ELIGIBILITY**

Enagic Event News

Malaysia

2,300 Gather for Enagic Malaysia's 4th Anniversary!

On November 14, an estimated 2,300 people rushed to a venue in Malaysia's capital city, Kuala Lumpur, to celebrate the four year anniversary of the Enagic Malaysia branch. As evidenced by the very scale of the event, the Enagic business is making great progress in this rising nation, which is currently experiencing remarkable economic development.

During the event, the excitement in the venue reached its peak when distributors were presented with certificates and bonuses by the Master of Global Training, Katsumasa Isobe, and the Malaysia branch manager, Nick Nakao. As each awardee was cheered on by their respective teams, the entire audience joined in and showered them with thunderous applause for the honor they had received. Various forms of entertainment performed by distributors and powerful messages delivered by the leading distributors were all part of the elaborate program prepared for the rest of the event. The 4th anniversary celebration ended in a grand fashion, suitable for the rapidly progressing nation.

The new 6A-2 distributors proudly line up on stage.

Indonesia

501 SYSTEM Provides Special Training!

From November 25 through 27, an estimated 200 distributors gathered at the beach in Lombok Island, Indonesia, to participate in a special training session held by 501 SYSTEM INDONESIA. According to Joko, the purpose of this event was to strengthen the abilities of these promising distributors, lining them up to be the next leaders of Enagic. The participants tackled different tasks and learned how to challenge their perceptions, improve communication skills and envision a greater future. Great leaders are sure to be born from this talented group of distributors.

200 up and coming distributors gather to receive training.

This Is How I Reached 6A2-3!

わたしはこうして6A2-3に達した!

Success is to Become a Better Person by Overcoming "Teachings from God"

成功とは“神が与えた試練”を乗り越え、より良き人になること

Wikan Handono [Indonesia/インドネシア]
ウィカン・ハンドノ

Wikan Handono is a dentist who is also greatly interested in the business world. At a young age, he began running 5 clinics in West Java, located next to Indonesia's capital, Jakarta. However, a few years ago, he ran into some difficulties with one of his businesses and sustained a loss of US\$150,000. He had fallen into terrible "financial health."

Nevertheless, Wikan accepted this hardship as a teaching from God, "preparing me to be a better man," and prayed every day. In July of 2013, his prayers were finally answered, when he met Indonesia's leading distributor, Andhyka Putra Sedyawan, and was introduced to Kangen Water. Looking back, Wikan says that his intuition told him, "this is a huge business that could pay off all of my debts," and he eventually purchased a Leveluk unit and began his Enagic Business.

Support from Wife and Parents Enables Hard Work

During his start-up with Kangen Water, Wikan was introduced by Andhyka to a man who was considering purchasing a Leveluk unit and was also looking for a sponsor. Wikan was not in a financial situation where he could afford to buy a unit himself, let alone sponsor someone else's purchase, so he began to worry that he

would miss this great business opportunity. When he finally opened up to his wife about his turmoil, she understood his frustrations and did not object to him borrowing more money. Since then, he has been, "working hard every day," grateful for the consistent support he receives from his wife and parents.

Diligently Working Together with his Enormous Group, KAT!

As a result of his steady effort, Wikan quickly reached the rank of 6A by April of 2014, stepping up to 6A2-2 in October of the following year and finally reaching 6A2-3 this year September. Wikan, who holds, "achieving 6A4-4 by the next Global Convention," as his next target, says that his key to success is to, "learn from every mistake, evaluate and keep fighting," and added that, "success is when you become a better person every single day." Currently leading Kangen Amazing Team, a.k.a. KAT, an impressive group of twenty-two 6A members, Wikan is working diligently in transforming more people into a "better person" with the blessings from God.

Enagic Electrolyzed Water News

JEWA Holds Electrolyzed Water Seminar!

On November 4, the Japan Electrolyzed Water Association (JEWA), which Enagic International is a member of, held their 8th Electrolyzed Water Seminar in Tokyo. Two years and a half have passed since the Japanese government approved and specified acidic electrolyzed water as a "designated harmless agricultural chemical," and examples of implementing the water in rice, vegetable and fruit farming over the years were introduced during the seminar.

The chief of Technology and Extension Division of Agricultural Production Bureau of the Ministry of Agriculture, Forestry and Fisheries, Ikuo Manabe, was commended with excited applause as he spoke of his anticipation for the future potential of acidic electrolyzed water as an alternative for agrochemicals. With reports of the use of electrolyzed water in the field of food safety and the disinfecting mechanisms of acidic electrolyzed water, the intensive seminar proved to be a productive event for all participants.

The seminar venue, filled with participants.

The chief of Technology and Extension Division, Ikuo Manabe, gives his speech.

GLOBAL FOCUS ON

cont. from P1/

[Philippines]

(Top Left) Kraig/5A & Chad/6A & (Bottom Left) Hilary & Veronica/6A2-2 Quinain

(Cont'd from P1)

Veronica resides in Cebu Island, known globally as one of the most prominent tourist destinations in the Philippines. However, life on the island is not all luxury for everyone. As a resident of the island, Veronica wishes to contribute in improving the lives of others. To achieve this, she understands the importance of diligence and commitment and finds these same qualities in the Japanese company, Enagic.

Although Veronica does not believe in having preconceived ideas or preferences influenced by the nationality of people or companies, she agrees that the valued qualities of Enagic comes from its Japanese background. She also holds CEO Hironari Ohshiro and his business policies, which promise holistic human development, in high regard. "Mr. Ohshiro's heart for compassion and unity is the driving force of my work," said Veronica, enlivened by the joy of empowering others through Enagic.

The visit to the Osaka Factory on November 18 (Veronica is standing, 6th from the left in the last column)

Veronica considers her team as part of her family.

From Okinawa to the World! The Success Story of Hironari Ohshiro

Chapter 15

Toshio Maehara

Tokyo-bound, once again

Ohshiro once again moved to the mainland, this time to take up an accountancy position in Tokyo. He was planning to become a certified public accountant but the flames that fired his entrepreneurial spirit still burned brightly. The young couple had quietly started to dream big for the future. These dreams prompted them first to make the move from Okinawa to Tokyo, then onwards to America. First the west coast, then the east. Then further still to Europe and beyond to Asia.

Even sharks can have amusing habits. Apparently sharks raised in aquariums never grow very large. But wild sharks, the sharks which swim freely in the open seas, can grow very large indeed. If Ohshiro had stayed in Okinawa, his growth might have been as stunted as a kept shark. Would he ever have managed to mature into a king of the international oceans? Think about the work of a gardener. To grow a big tree, first you must nurture the seeds in a small planting pot. Once the roots have extended far enough, the fledgling tree is transferred into a medium-sized pot, and then a larger pot, and so on. At last, the tree is given a new home in the ground where it can stretch out its branches as far as it might please. So even if you start off with something small, you should still be striving to make the receptacle holding that small and precious item as big as you possibly can.

So it was that Ohshiro and Yaeko made their way to the unknowns of the big city and all it had to offer.

The Ohshiros firmly believed that success was to be found in Tokyo. They were ready to endure whatever hardships and difficulties live in the big city might involve and made their way back to its bright lights. Ohshiro was used to living in poverty. He was used to the struggle. The couple rented a small room in a little corner of Tokyo, with just enough space for the two of them to eat and sleep. Neither of them knew what life in Tokyo might hold. They had been prepared to put up with an extreme way of life when they decided to settle in Tokyo. But for Ohshiro, having Yaeko with him this time around gave him more strength and motivation than he could have hoped for. Any sadness or struggle could be shared— and therefore halved. Happiness, on the other hand, would double.

沖縄から世界へ! サクセスストーリー 大城博成

第15回

前原利夫

島を後に再び東京へ

東京の小さな部屋から夢は広がった
Their dreams began from this tiny room in Tokyo

大城は、上京して得意の経理事務所に職を得た。当初、公認会計士を目指したが、胸の中に燃える起業家スピリットはまだ燃え尽きない。大城夫妻の胸の中には大きな夢が描かれ始められた。こうして、沖縄から東京へ、そこからアメリカの西海岸、東海岸、ヨーロッパ、アジアへと夢が飛んで行った。

鯨の習性も愉快だ。水族館の水槽で育つ鯨は大きく成長しないようだ。しかし、海で泳ぐ鯨は大きな鯨に育つ。いつまでも沖縄の島にいたら小鯨で、果たして大鯨になり世界の海を泳ぐことが出来たであろうか。植木屋さんの仕事も観察すると何かと示唆に富む。大きな木を育てるに、初めは小さな植木鉢で育て、次に中サイ

ズ、そして段々と大きな鉢に移植していく。やがてそこから街路に移植されて背が伸び、大きな枝を張るようになる。入れ物が小さくとも、大きな器、風呂敷きを大きく広げたほうがよさそうだ。しかし、二人は重い足を引きずり、未知の大都会へ進んで行った。

大城夫妻は、成功は大都会、それも東京にあると信じた。そのためにはどんな苦勞も困難も覚悟で島を後にし、再び、上京した。大城は貧困には慣れている、苦勞には強い。夫婦は東京の一角で小さな部屋、二人で寝るだけの部屋と食事が出来るスペースを確保した。これからどうなるか読めない東京の生活だ。二人は極限の生活を想定して再び東京の地に足を下ろし、足場を見つめた。しかし、今回は八重子も一緒、大城にとってこれ以上の力、励ましはない。悲しみや苦勞を共有するとそれは半分になるという。共に喜ぶと、それは2倍になる。

● Author's Profile

Born in Okinawa in 1941. Maehara graduated from Naha Commercial High School in 1960. After attending the University of Hawaii, he graduated with an MBA from the University of Southern California Graduate School and with an MA from the Fuller Theological Seminary. He is now actively working as a consultant at a Japanese firm and is also a minister. He is the advisor of Enagic USA. Other major works by the author: "The Rules of Business Taught by the Bible" / "Quenching the Thirst for Global Success"

● 著者紹介

1941年、沖縄県生まれ。60年に那覇商業高校卒業。その後、ハワイ大学を経て南カリフォルニア大で経営学修士、フラー神学校で神学修士をそれぞれ取得。日系企業のコンサルタントおよび牧師として活躍中。エナジックUSA顧問。主な著書:「聖書が語るビジネスの法則」「小さな島から世界を飲む!」

Let's play! The Very First Monthly E8PA Golf Competition!

On November 8, shortly after the grand opening ceremony of the E8PA Main Hall, the E8PA sponsored monthly golf competition was held at the Enagic Sedake Country Club in Nago City. After CEO Hironari Ohshiro, along with six other members, hit the ceremonial opening tee shots, the competition commenced with nearly 100 people in participation. The E8PA has set the 8th day of each month as "E8PA Monthly Golf Competition Day" and has provided an opportunity to enjoy a round of golf at Enagic Sedake CC. Limited to 100 members only, the membership fees are as follows:

- E8PA card holders: Free
 - Leveluk owners without an E8PA card: ¥2,000 each
 - Non-owners of Leveluk and E8PA card: ¥3,000 each
- For further details, visit <http://e8pa.com/jp/>

The very first competition gathers about 100 people to enjoy a round of golf.

The CEO (front) makes a dynamic shot during the opening tee shot ceremony.

Participants Invited for Free Trial Round at Enagic Sedake Country Club!

Limited until December 29, all Enagic distributors, family members and sponsored guests are invited to enjoy a free round of golf at the E8PA facility, Enagic Sedake Country Club. In addition to the free trial, those who participate in this event can also enjoy the facility's large public bath and sauna for free. Make full use of the electrolyzed water provided by the Leveluk machines installed in this great Okinawan resort. Come join the fun at Enagic Sedake Country Club today!

This golf course is the practice ground for Enagic Golf Academy students, such as Hina Aragaki and Riri Sa-doyama, who currently rank at 2nd and 3rd, respectively, in the Japan Amateur Golf Ranking established by the Japan Golf Association. (As of November, 2016)

For inquiries and applications, please contact the Enagic 8 Prosperity Association, or call Enagic Sedake CC at +81-980-55-8368.

Enjoy a round of golf surrounded by the
abundance of Okinawa's nature.

Enagic Flash News

Overseas Teams Visit Osaka Factory in Rapid Succession

On November 11 and 18, teams from Malaysia and the Philippines visited the Osaka Factory, respectively, and thoroughly observed the production of Leveluk machines. The visit was a fruitful experience for each team, as lectures were given on the details of production and they were able to receive direct answers to the questions they raised. "I now understand that a Leveluk unit is created with the highest standard of Japanese technology." Praises and voices of astonishment were heard from the distributors visiting the factory.

The team from Malaysia gathers in front of the Osaka Factory.

The team from Philippines shot inside the factory.

Enagic staff explain the details of the production process.

Participants carefully observe the assembly process.

Enagic Group News

Doubling Production with Ukon Factory Upgrade!

On November 19, the groundbreaking ceremony was held for the extension of the Okinawa Kangen Foods factory in Nago City. The new building that will be added onto the facility will house four more Ukon driers, adding to the four already in operation, aiming to double the current production of 1 ton. This upgrade is a direct result of the steadily rising sales of UkonΣ supplements.

The participants of the groundbreaking ceremony pray for a safe construction.

Enagic Community Contribution Report

CEO Speaks Passionately to Youths at His Alma Mater!

On November 16, CEO Hironari Ohshiro was invited to his alma mater, Naha Commercial High School, and was asked to give a speech to his juniors. Looking back on his life, he recounted the experience of starting from within the small islands of Okinawa and eventually soaring out into the world, speaking passionately to the young adults about the importance of having dreams.

The CEO energetically gives an hour-long speech.

The entire first grade gives their full attention.

Fighting influenza with strong acidic electrolyzed water and strong Kangen water!

Japan is about to enter midwinter. This is also a time when influenza is most prevalent. The mass media are all reporting the start of the spread of infection and are issuing reminders to stay vigilant. Seeing this, I would imagine that there are a large number of people wondering whether it would be better to get vaccinated. Whatever you choose to do, the most important thing is to avoid infection from the influenza virus. In order to do this, the most important thing is "prevention".

■ Wash your hands for 15 seconds with strong Kangen water

Washing your hands and gargling are key to preventing infection. Use electrolyzed water as much as possible when washing your hands. First carefully wash the palm and back of your hand, your fingertips and underneath your fingernails for at least 15 seconds using strong Kangen water. Then wash between each of your fingers, paying particular attention to your thumb and finish off washing your wrists.

■ Follow up by washing your hands with strong acidic electrolyzed water

Next, follow the same procedure to wash your hands using strong acidic electrolyzed water. This will have an anti-bacterial effect. To finish off, dry your hands with paper towel etc. It is also said that washing your face after returning home from outdoors is beneficial in preventing infection. It is best to take care to wash your hands when necessary in and around the home in addition to when you return home after an outing.

■ Gargle with strong acidic electrolyzed water

Gargling is also extremely important to prevent infection. Use strong acidic electrolyzed water to gargle, ensuring it reaches the back of your throat, as soon as you return home from outdoors. You and your whole family have a good chance of avoiding influenza if you make sure to practice the most basic of basics of washing your hands and gargling with strong electrolyzed water each day.

強酸性電解水と強還元水でインフルエンザに立ち向かう!

日本はいよいよ真冬の季節をむかえます。それはまたインフルエンザの流行する季節でもあります。

マスクも感染が広がりはじめるといっせいに取り上げて注意を喚起します。それを見て「やっぱり予防注射をうったほうがいいのかな？」などと考え込んでしまう人も多いではありませんか？

いずれにしてもインフルエンザは「罹らないこと」が一番大事。そのための最優先事項は何といっても「予防」です。

■強還元水で15秒間の手洗いを その予防の基本はやっぱり「手洗い」

「うがい」でしょう。そして手洗いには電解水を大いに活用しましょう。

まず強還元水で最低でも15秒間、手のひら、手の甲、指先、ツメの間をていねいにこすります。それから親指を中心に指の間を洗い、最後に手首の回りもしっかり洗います。

■強酸性電解水の手洗いも

次に強酸性電解水を流しながらこれと同じ手順で手洗いをします。これにより除菌効果が望めますよ。最後にペーパータオルなどでふき取って終了です。さらに、帰宅後の洗顔もおこな

ておくと、よいそうです。

手洗いは帰宅直後にかぎらず、家庭内においてもこまめにすることが望ましいのです。

■うがいも強酸性電解水で

うがいたいへん大切なことです。帰宅したらすぐに強酸性電解水でノドの奥まで念入りに、ガラガラさせましょうね。

この、強電解水を使った基本中の基本の「手洗い」「うがい」を、毎日徹底しておこなえば、家族揃ってインフルエンザに無縁の生活をおくれることでしょう。

Larger and Glorious Flowers Bloom with Kangen Water!

還元水なら水道水より花は大きくきれいに咲き誇る!

Sakurako Yamazaki smiling happily next to a Platinum unit. プラチナムの横ではほほ笑む山崎桜子さん

Sakurako Yamazaki comes from a family of flower shop owners. Influenced by her parents' flower shop business, Sakurako opened up her own shop 4 years ago and now, even her younger brother has his own separate shop. It seems as though she was destined to become a florist when even the name her parents gave her is related to flowers, Sakura meaning "cherry blossom" and ko meaning "child" in Japanese.

When we visited Sakurako at the end of October, the entire 40㎡ interior of her shop, Flor Cerezo・Rosa, was covered in over 100 different kinds of flowers. She informed us that it was the perfect season for roses. "The roses are splendid now and throughout winter," emphasized Sakurako. As if competing with one another, the cyclamen and poinsettia both blossomed in all their glory, primping themselves up for the approaching Christmas season. From the end of the year through January, the blooming of spring flowers such as tulips, sweet peas and freesias, will announce the early coming of spring.

In June of 2016, Sakurako purchased a Leveluk SD501 Platinum unit. While she applies Kangen Water in her everyday general use, such as drinking and cooking, she also uses the water in her shop to keep roses, chrysanthemum and several other cut flowers fresh. "It may be due to Kangen Water's ability to be absorbed fast and easily, but compared to tap water, our roses bloom much larger and more beautifully," Sakurako expressed her surprise. Though she limits the use of Kangen Water to certain flowers at the moment, she is eager to explore the effects of electrolyzed water on a wider variety. With the help of Kangen Water, larger and more glorious blossoms await the customers at Sakurako's shop.

山崎桜子さんは「花屋一家」の娘だ。もともと両親が生花店を営んでいたが桜子さんは4年前に独立。弟さんも別に生花店を経営している。そもそも両親が「桜子」という名前を付けた時点で将来の「職業」は運命づけられていた？

40㎡ほどの店内には常に100種類前後の生花が所せましと並んでいる。取材をしたのが10月末だったので、ちょうどバラがよい時期と聞いた。桜子さんも「冬にかけてバラの花が素晴らしいですよ」と強調していた。加えてクリスマスの時期が近づくため、シクラメンやポインセチアなども覇を競うように美しく花を咲かせていた。年末から1月に

は、早々とチューリップやスイートピー、フリージアなど初春の花が咲き誇るのだという。

レベラックSD501プラチナムを購入したのは16年6月のこと。還元水は飲用や調理にも使っているが、生花店ではバラや菊など数種類の切り花を入れる水に活用中だ。「還元水は吸収力が強いから、バラの花など水道水と比べても大きくきれいに花開くのです」と桜子さんは驚いていた。まだ点数は少ないが、今後はどんどんいろいろな花で電解水を試してみたいと彼女は意欲的だ。この店の花はきっと他店より「大きく美しく咲くのだろう」。
