ENERGY SAVER!
THE LEVELUK JRIV IS HERE!

*Enagic Founder and CEO
Hironari Ohshiro with
the BRAND NEW JRIV
water ionizer now available
in select markets!*

Message from Mr. Ohshiro

Freedom to Thrive in Any Era

This month's Enagic Global E-Friends edition is focused on freedom. Because even as the Coronavirus pandemic has shut down the economies of so many countries around the world, Enagic Independent Distributors are finding new ways to connect with their customers and share Kangen Water!

The entrepreneurial community of Enagic distributors is incredibly nimble and resourceful, equipped with the freedom to set their own schedules. They follow nearly unlimited creative paths and utilize varied methods to build enduring relationships and convert meaningful sales. Imagination is the only limit to this wonderfully atypical career.

With such flexible calendars, and thanks to valuable hours saved from having to commute to offices or occupy static desks for several days a week, many Independent Distributors can also spend more time with family and friends and are free to exercise and pursue enriching pastimes, making them happier, more well-rounded individuals.

Anyone can join Enagic's Independent Distributor family. Our infinitely diverse, global roster is a beautiful quilt that enables people with boundless backgrounds and abilities to sell Enagic water machines and Ukon.

The company's unique compensation plan also cultivates a collaborative culture that stands in stark contrast to notoriously cutthroat corporate environments. Enagic offers an amazing entrepreneurial opportunity and products that are best in class. Independent Distributors are truly unencumbered from expectations on this level playing field. The only barrier to success is each Independent Distributor's innate initiative, desire and drive. Everyone has the same opportunity to achieve their goals.

I look forward to seeing our supportive community flourish in the rest of 2020 and beyond.

Argentina

Distributor Profile

Gonzalo Diz

6A

Gonzalo Diz's Enagic journey started with a trip to a trusted psychic. He often sees her as part of his "spiritual search" and she suggested developing a deeper connection to water. The Buenos Aires native was already an avid surfer and her advice proved prescient.

"She told me to study it," Gonzalo said, "to know it in depth, its structure, chemical composition, where it came from, what the element was about...I began to investigate what made a good water to drink."

Gonzalo had developed a reputation for business acumen and friends frequently called him for advice. "One day Matias Cosentino called me, who today is my upline," he recalled. "We started to philosophize about water." Cosentino knew about Kangen Water, but neither man owned a machine yet. Cosentino immediately bought his first Kangen Water machine through a Canadian distributor and promptly sold a JR11 to Gonzalo, who was instantly enamored.

"I couldn't believe it, they seemed like magic equipment," Gonzalo said. "As soon as I started drinking the water and noticing the results,

I gave the JR11 to my mother," he added. "I started to share the water from pure enthusiasm... People started calling me, who I didn't even know, wanting to buy equipment."

By the time Gonzalo earned 4A status, income from part-time Enagic work started to eclipse his day job. "Understanding the freedom that working with Enagic meant, the quality of the sales revenue, and the low capital risk it represented compared to my other activities, I decided to sell my other business."

Gonzalo grew up in a small town outside Buenos Aires and briefly practiced law before opening sandwich shops and businesses ranging from "fermented drinks, natural cosmetics, to co-working spaces" and an organic supermarket called La Proveeduría Orgánica. "Of course there's a Kangen Water machine where people go to refill their water bottles," he noted.

Now Gonzalo focuses 100% on Enagic, a rewarding, low-risk “blessing” that provides more flexibility to travel, surf, and practice Jiu-Jitsu.

“As a teenager, I watched my father lose his job and never recover from that blow,” Gonzalo said. “At that time I decided that I never wanted to be in this situation of dependency...From the time I was 23 years old I chose the life of self-employment.”

Gonzalo’s entrepreneurial spirit has proven valuable as an Enagic Independent Distributor. “The fears and insecurities that any normal person wonders about were already well digested,” Gonzalo said. “The rest is learning as you go.”

Of course, even a seasoned businessman faces unexpected challenges. For instance, no prior experience could have prepared Gonzalo for how to navigate a pandemic.

“I reached 6A in March of this year (2020), during the newly declared COVID-19 quarantine,” Gonzalo said. “I have heard an endless number of excuses for not doing Enagic business here in Argentina: that we do not have offices, that the equipment is very expensive for the Argentinean economy, that it is difficult to import the equipment, that the currency is devalued every three months, that we are in the middle of a pandemic, etc.” His sales achievements tell a different story.

Long-term goals include reaching 6A2-3 and earning \$1 million. He said, “I want to expand my team internationally and generate enough sales volume to merit an Enagic office here in Argentina.”

“Enagic undoubtedly builds the best equipment in the world, and I am here to facilitate it,” Gonzalo said. “In Argentina everything is difficult, however to ‘change your water and change your life’ is easy.”

Malaysia

Distributor Profile

Alex Yap

6A

Beginner's luck doesn't do justice to Alex Alex's impressive early efforts in Malaysia. The long-time IT specialist was a full-time Enagic Independent Distributor for just three months when he found a housing developer who needed 100 units. Thanks to persistence, relationship-building, and sound advice from a mentor, Alex finalized the deal and became 6A in dramatic fashion.

The Kuala Lumpur native earned his Master's degree in Information Technology from Queensland University of Technology, Australia, and thrived in the field for years. Alex longed to be an entrepreneur, but "assumed that it was not feasible." Acquiring necessary capital and experience seemed daunting. So did the requisite risk-taking. "I dared not move out from my comfort zone of drawing monthly salary," he said.

Circumstances changed in 2018 when his multinational company announced plans to close within the year. "I was devastated, shocked and felt lost as I was already in my late 40s," he recalls. "It would be difficult for me to get another job in the same industry." Fortunately, a senior colleague named "Mr. Anthony" introduced him to Enagic. Mr. Anthony was already earning more money from his Enagic side hustle than from his corporate job and committed to be a full-time distributor. Alex was inspired by his friend's financial success with such a "health-conscious" company and followed the same path part-time.

"Initially, I encountered many challenges in Enagic business," Alex said. "I had many rejections when I started sharing about this healthy product with my close friends and colleagues. In order to overcome the challenges, I determined to better equip myself with more information about the product and brushed up my marketing skills. Hence, I participated all of the Enagic organized events and read a lot of books."

Alex slowly built confidence and started convincing more prospects of Enagic's efficacy. By August 2019, when Alex's IT job finally ended, he became a full-time Enagic distributor and even looped in brother William to do the same.

"Unexpectedly, one of my prospects called me that a company was looking for about 100 units of Kangen Water machines for their customers," Alex said. "I could not believe my ears." Trusted mentor Mr. Anthony helped him reel in the unusually epic catch, closing the deal in October 2019. "I managed to convince them through product demo and presentation of slides by stressing the importance of 'healthy living & improving quality of life with proper hydration,'" he says. The COVID-19 lockdown posed additional delivery and installation challenges, but by maintaining good rapport with his client, Alex completed the sale and achieved 6A status in May 2020!

"My little success story is to grab the chance when opportunity knocks on your door," Alex says. "Having the right attitude, doer, positive mindset and determination to overcome any challenges, you will definitely be reaching your goal one day."

Becoming 6A in a single swoop is quite an achievement, but Alex has even bigger plans for the future. With a newfound "sense of achievement, fun and self-confident" attitude, he now aims even higher.

Alex hopes to achieve 6A2-3 by 2023 while simultaneously developing and mentoring five "high-achiever builders" in his downline. When he isn't playing basketball, jogging, or watching his favorite soccer team Liverpool on TV, he plans to "keep sharing and promoting, so that more people will benefit from the Enagic business, be it in health or wealth."

INTRODUCING *THE NEW* Leveluk Jr IV

THE ENERGY SAVER

The JRIV has four solid electrode plates which reduces the energy consumption. Due to the solid platinum-coated titanium plates, this unit can still produce the Strong Acid and Strong Kangen waters.

- HIGH PERFORMANCE WATER IONIZER WITH FOUR ELECTRODE PLATES
- CONVERTS TAP WATER TO FIVE DIFFERENT WATER TYPES AT THE PUSH OF A BUTTON
- LARGE LCD DISPLAY
- BUILT-IN ELECTROLYSIS ENHANCER TANK

PRODUCT SPECIFICATIONS

Electrode plates:	4
Plate size:	135mm x 75mm
Negative ORP:	-450mV
pH Range:	2.5 - 11.5
Generates:	5 water types
Wattage:	120W
Total weight:	5.3kg
Dimensions WHD:	264mm x 338mm x 171mm
Production rate:	Kangen Water : 2.0 l/min - 3.0 l/min Strong Acidic Water: 0.5 l/min - 1.0 l/min
Ease of Use:	Fully automatic unit
Warranty:	3 years

India

Enagic India Celebrates LeveLuk JRIV Launch

On June 21, Enagic India's modern fourth floor office in Bangalore celebrated the new LeveLuk JRIV machine. This model replaces the JR11 and features four platinum-coated titanium electrode plates (up from three) that increase performance and convert tap water to five different water types simply by pushing a button. JRIV also touts a large LCD display and built-in electrolysis enhancer tank.

Enagic India staffers invited 6A and above leaders present in Bangalore to the event, keeping in mind COVID-19 considerations and social distancing norms. Top leaders from Gujarat, Hyderabad, Mumbai, and the Enagic Japan office shared best wishes through video messages to the 20-plus people who celebrated the product launch in-person. The party also showcased purple and white balloons, matching confetti, and a colorful cake designed to look like a LeveLuk JRIV machine. In both cases, the JRIV is a true work of art.

CONGRATULATIONS!!!

6A2 ACHIEVERS

How Enagic Helps Independent Distributors Find More Freedom

As we read in this month's Message from Mr. Ohshiro, Enagic provides a wide range of opportunities to enjoy freedom. Independent Distributors from across the U.S. also submitted personal stories describing how Enagic helps them be freer in their careers and throughout their lives. Their answers are inspiring.

6A9-6 Jayvee Pacifico, California

"Freedom is not just to do what you want, but a freedom to be who we were meant to be." I was able to achieve that kind of freedom because of Enagic. I am always grateful to God, for giving me the strength, understanding and courage to move forward to be where I want to be and to Mr. Ohshiro for not giving up on me.

6A11-6 Cynthia Briganti, California

I thank God for giving me the Enagic business that changed my life completely! Working hard with Enagic diligently gives me the freedom to choose more closely to God, to face the world with love, respect and acceptance, to be with my family, own my time, to achieve more goals on getting my production month after month, 8 points and direct points, so I can achieve more victory and financial freedom! Enagic is not about making millions of dollars, but it is about my commitment, contentment and freedom, of what I want, who I want, and where I want to travel around the world abundantly, to spread the good news of the products and meet new friends, with compassion ...To God be all the glory; through Enagic I was able to make myself and my family happy with financial health, physical health and peace of mind!!! God is with us, to bless us all!

6A12-5 Eli & Jillina Dafesh, California

My family immigrated to the USA when I was five years old. So, there I was, a Middle Eastern immigrant who couldn't speak English, couldn't read English, and had a learning disability. Despite my challenges, my parents always encouraged me and made me feel like I could do anything and was worthy, and to work hard. When my first-born son Wadia was three years old, he fell out of a two-story window. He was in a coma for 10 days. When your child is hurt you would give everything you have - including your life - to take their place. This incident played a major role in my ultimate decision to seek out a career path that could offer extraordinary income potential. I knew his condition and challenges could be a lifetime. Fortunately, later in life Wadia not only recovered his life's challenges, but has risen as one of Enagic's Most Recognized 6A6-4 Leaders and today, Wadia and his wife

Saja are one of the top power couples! Our daughter Tiana and husband Anthony are 6A2-3s and developed Enagic's first Top Millennial Team. Jillina was raised in a small town working for her parents' Italian restaurant. After 17 years, they had to close down and lost their home. After high school, she married and a year later, lost her daughter during childbirth; seven months later, she had a miscarriage, but later gave birth to two amazing sons Scott and Chase. Like many of you who have endured trials and tribulations, we too have had unimaginable challenges to overcome until we found a little known Japanese company called Enagic in 2006 and our life has never been the same since! Our founder Hironari Ohshiro's philosophy is to spread social well-being globally with compassion. His philosophy is to help the underdog, the man who is down and out! Jillina and I knew we had to align ourselves with his movement "The Kangen Journey to Freedom" and we've dedicated our lives to helping people discover and master "jiyuu," (to be free) and spreading True Health! Because of Enagic, we have been able to help our parents and family, give back to so many unfortunate, bless so many lives, create a legacy for our family, build a global business, travel the world, enjoy time freedom, built a villa overlooking Westlake Village, and helped hundreds of people reach six- and seven-figure incomes. In the midst of this economic crisis where people are being disconnected, our main purpose is to help people get connected to freedom; there's never been a greater time in history. We believe family is the essence of life and people need to know about the Enagic family and Mr. Ohshiro's vision to help families around the globe achieve freedom. "Enagic is jiyuu!"

6A9-5 Bob & Jenny Gridelli, California

We started this amazing journey with Enagic in 2007 with a dream to be financially free! Since then, we have been able to pay it forward and help so many people achieve physical health, financial health, and mental health. Our amazing team is doing about \$5 million a month in sales and has reached over 100,000 people and has done over \$100 Million in sales. We have been able to travel the world, spend more time with our beautiful family and live the life of our dreams! We will continue to spread our message of compassion to the human race globally. We make mankind our business, the world our office, but God is still our boss! Thank you to Enagic and Mr. and Mrs. Ohshiro for making dreams come true!

6A4-4 Michelle Raley, Oklahoma

In the United States of America, July is the month we celebrate freedom. As my mind reflects on that, I think about all the ways that Mr. and Mrs. Ohshiro, and their company Enagic, has brought freedom to my life. Not only has Enagic brought me all the freedoms that come with True Health, such as the gift to have healthy finances, a healthy body, and peace of mind, it has also given me the ability to give those gifts to others. I am also so grateful that I have been able to be free to choose when I work, where I work, and with whom I work. There's simply nothing better than being in Enagic where we are all truly free to live our very best lives. I thank God for Enagic and the team of extraordinary independent distributors that He has blessed me with. May we all continue to share the gift of having True Health and freedom with Enagic!

6A6-3 Nathalie & Nick Sorensson, California

I started Enagic in July 2008. At the time, I was struggling in my life. As a single mom living in the Los Angeles area, I needed a pretty high income to take care of my children properly. My dreams had been shattered after several business failures and all I wanted was a good, stable job with security. I found and started this job the same week I started with Enagic. After seeing the Enagic presentation I started to believe that there might be another solution for me. For six months, I was working 40 hours a week at my job, as well as tutoring French 10 hours a week on evenings and weekends and doing home demos every week. If you add this up, plus taking care of my kids and the house by myself, I was very busy. Nevertheless, after exactly six months, I was able to quit both my employee job and my tutoring job and do only Enagic! I was 5A at the time. One month after that, in February 2009, I achieved the rank of 6A. Enagic has given me financial freedom, time freedom, improved the quality of my life, and allowed me to do more things that I've wanted to do. Little by little, I started creating my dream life. When I was one year into the business, I met my soulmate, Nick. We started working together in Enagic as well as pursuing our respective artistic passions, while helping others and having peace of mind. Thank you Mr. and Mrs. Ohshiro! Enagic is definitely an amazing way to make dreams come true!

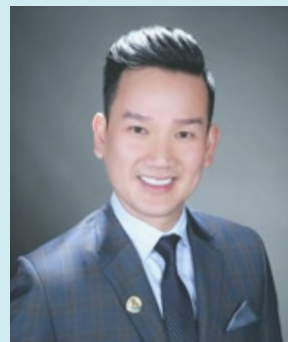

6A4-3 Frédérique Mollet, California

I'm from France and I live in Los Angeles. I've been an Enagic distributor since mid-2008 and I've achieved the rank of 6A4-3 so far. I love being an Enagic distributor because it allows me to have more time for my children as I'm working from home. And I love the freedom it gives me to be able to work with the entire world. I meet new amazing people all the time. But the thing I like the most is how you improve people's lives. The products are totally amazing, and the referral system is precious. I will never stop working Enagic because at its core there is so much humanity coming from its founder, Mr. Ohshiro. His concept of "True Health" is so true. With Enagic you create good effects that have an impact on all areas of life; you improve yours and other people's lives. I now have enough financial freedom to help my family and contribute to causes I like. I know that if I want to be successful I'll always have to work on myself to become a better person, because as you grow, your team grows and you have to constantly be able to take care of your team from close or from far, but always make sure they are also expanding. Teaching others to fish is always better than giving them fish. So YES, I do love Enagic; it's the way to go if we want to make life better all around us!

6A4-4 Tan Nguyen, California

First at all, I would like to express my sincere gratitude and appreciation to Mr. & Mrs. Ohshiro and Enagic for changing my life more than I have expected. Just two years after joining Enagic, I have achieved true financial and time freedom and of course, very good physical health. My dream came true; I can travel anywhere in the world. Now, more than ever, I realize what we have here at Enagic. In pursuit of the Enagic mission for “True Health”: physical, financial and mental health for millions of people in the world.

6A3-3 Nancy Doan, California

As an immigrant coming to the United States, I’ve always believed in the American Dream. The dream for me was to be able to be financially sound, healthy, and happy with a large family. Although it is a basic dream, it was hard to come by, but thanks to Enagic and Mr. & Mrs. Ohshiro I was finally able to achieve that dream. This company changed my life for the better and allowed me to succeed and fulfill my lifelong goals. I will continue to share this opportunity with many others so that they too can achieve their dream. Change your water, change your life!

6A2-2 Debbie Carlson, California

Our family enjoys more freedom since changing to Kangen Water! Just like we say in the USA, freedom isn’t free; the same is true in Enagic. Not only did we need to first invest in the technology; as time went by, we began to understand the vision of True Health that Mr. Ohshiro teaches, and we invested our time and energy into the mission of compassion. So, the freedom we have found in Enagic wasn’t free, but it’s been worth every bit of investment and more! The best part is that we have freedom of time so we can choose who we spend our time with! Not only time with my husband and family, but also as we share in the lives of others, hear their needs, hopes and dreams, we get to come alongside them! This is the very best feeling in the world! Relationships based on trust and linking arms to do good! It feels good to share how each Kangen unit holds the option of a key to unlock and open a door to new levels of freedom and potentially unbelievable benefits. I just love that we can give water freely! There is no limit to the fullness in hearts to enjoy more love, joy and peace ~freedom!

6A2-2 Stephanie Contreras, California

Enagic has given me the freedom to pursue my financial goals and the ability to create a life that I love! I have been challenged to believe in sharing, growing and allowing myself to receive blessings while being a blessing. I find that Enagic has given me purpose. I love that I get to share a product that has made a difference in me, and I get to share and help make a difference in other people’s lives! I love Enagic!

6A2-2 Phillip Harp, Arkansas

I can hardly begin to tell you how happy and blessed we have been since learning about Enagic and Kangen Water over 12 years ago! While we work nearly every day, we haven't had a job in 10 years. Partnering with Enagic and Mr. Ohshiro, we have been able to enjoy a level of freedom I consider priceless. Most recently, my 84-year-old mother had a fall and fractured her hip. Because of our Enagic business, I have been able to spend most of the last couple of months staying with her and helping her rehab. My three brothers only get to visit occasionally because they are trapped in the traditional job market. Enagic allows me the flexibility to tend to do what is important in my life. To top it off, we get to spend our time growing our Enagic business anywhere we want. Just this past week, we helped a family that lives right down the road from my mom get their Enagic machine ordered and they are so excited about telling their friends and family. After 10 years we STILL get excited to help others!

6A2-2 Tiana & Anthony Sempero, California

Enagic gives us the freedom to create our own schedules and work from home together. It is such a blessing working with my spouse and being able to have the flexibility to enjoy our first pregnancy from home. Our son will never have to be without his parents' full-time care, thanks to Enagic! This business has diversified our skills that a traditional job doesn't focus on such as public speaking, coaching, mentoring and most importantly, how to relate to others. Lastly, we have impacted thousands of lives positively by introducing them to Kangen Water!

6A3 Marilee Lessley, Utah

As an Enagic distributor, I don't build my business for money; I build my business for freedom. The freedom and potential to earn an income that doesn't have limits. The freedom to put my family first, work from anywhere in the world, and be present in the moments that matter most. Enagic has changed my life! One of the most rewarding things about this business also has been watching it change other families' lives and bring families time and financial freedom. I have loved watching people - from all walks of life - ALL OVER the globe create life on *their* terms and fulfill dreams they never even thought were possible. All from the purchase of one little box that gives the best waters in the world that they will use daily. No big franchise fees. No crazy debt that goes into a traditional business. No office needed. It's nothing short of amazing. Such an incredible opportunity we ALL have in this Enagic business AND it's available to everyone! Thank you Enagic & Mr. O!

6A2 Shadi Pezeshki & Kenny Broukhim, California

For our family, freedom was always our most important goal. We immigrated to the United States of America to obtain that freedom. Since we got here, we worked in the traditional world of retail, and we never truly felt free. We were always restricted in some way, either time-wise or financially. Enagic came into our lives when we were praying for something different. We wanted to find a business that through helping others would allow us to help ourselves. We found a true win-win opportunity. Not to mention, helping the environment at the same time! By being fully in control of our own business, we have been able to work as a family with our children and have the time freedom to enjoy our lives together, all while bringing the gift of Kangen Water to the world. This is the only company we've seen that has granted us the ability to leave town on vacation, relax, and still come home to a mailbox full of checks. We are truly forever grateful for Enagic and all the freedom it has provided for our family.

6A2 Tamara Figler, Oklahoma

Enagic gave me the most amazing gift of freedom that has meant the world to me and my family! At the beginning, I was just interested in the product; the business side was not what I wanted (or so I thought)! As I just organically shared about the amazing health side, checks started appearing in my mailbox. Little did I know that Enagic's generosity was my golden ticket as a solo parent to be there 100% for my kids in their growing-up years! I just weaved my sharing about it through our family's many activities and it gave us the most priceless gift of freedom ever! (Part-time hours...full-time money!) Thank you Mr. & Mrs. Ohshiro!!

6A Denise Brandolino, California

Being a part of the Enagic family has given me freedom. I value freedom more now than ever before. God is good... I try to remind myself daily. I make my own hours. I have no boss and the ability to make over 70% commission per sale, which is unheard of in most companies. I can never lose my rank and I'm involved with amazing like-minded people that inspire me, help me to grow, and force me to come out of my comfort zone. I can empower others by educating them with the advantages of the incredible health product that is Kangen Water. I can also teach people to build wealth within their own four walls - never driving to an office or having a boss telling them they can't go to

their child's event or an important family get-together due to work. I make my own schedule, I work when I want to, and empower others on my time. I stand behind a product that I truly believe is the best water on the planet: Kangen Water. Most importantly, during the pandemic we've been "forced" to stay home; many people are losing their businesses. However, I was able to build my business. I can still share a product that I truly believe transforms lives and educate people how to do the same. In addition making more money by working from home, I send videos, text messages, and do Zoom calls. Without holding personal appointments and I'm still making an exceptional living. I'm truly grateful.

6A3-1 Nilah Gann, South Carolina

Something is "free" if it can change easily and is not constrained in its present state. Thanks to Enagic, I've experienced freedom from financial fear and I'm no longer trapped in a body full of inflammation! I am forever grateful to Enagic & Mr. Ohshiro!

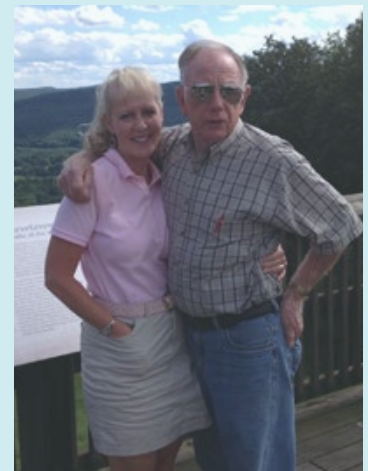

6A Tammy Goble, Utah

Enagic gives me more freedom to reach my dreams and goals financially and physically while also giving me more time freedom. I can be there for my family in times of need without the fear of losing my job or being demoted. Enagic has brought me home from the work place while giving me a raise in income. My goals and dreams are being accomplished year by year! Thank you!

6A Cynthia Woodward, ND, PhD, New York

The very word freedom resonates within us as something we all long for. For July 4th, our nation's 244th Birthday, my family and I celebrate not only our United States of America's birthday, but loving the fact that an avenue of our financial freedom is our Kangen Water business. As a health practitioner, I chose to buy an Enagic SD501 Kangen Water machine. It became my focus to learn all I could about it. To me, it was an answer to prayer! The more I learned, the more I wanted to share with my family, friends, and clients the incredible power of Kangen Water. Enagic business gives me the satisfaction of my health and financial goals being accomplished, along with the opportunity to assist other distributors to meet their goals. One's income is limited only by the efforts that you put into it! After sharing with my family and clients, and as they purchased their own Kangen Water machines, the checks started to roll in from the company. It was at that time that I took a serious look at the Kangen business as another source of freedom that was being offered to me, as health was always my number one focus. I am grateful for Enagic, a company that has helped to assist in my family's health goals as well as our family's financial freedom.

4A Shanna Lee Moore, California

When I joined Enagic I had only been taught about linear income, where you trade your time for money. Here, my sponsor taught me about leveraged and passive income, which is required for true financial freedom. Other great leaders spoke about the power of building a team or community. Enagic has provided me with a vehicle to earn additional income without having to work outside the home. This has given me the opportunity to spend more time with my kids and teach them how they can set themselves up for greater success in the future. I have the freedom to work from anywhere I have my phone, including while on vacation. Being able to work with people all around the world gives me the freedom to really make a difference! I am so grateful to Mr. O. for this company and his vision of True Health. I love when others achieve their goals and look forward to helping more reach the visions they desire.

Enagic Prawn Farm Factors Into Company's Holistic Approach

Mr. and Mrs. Ohshiro are immensely proud of their Okinawan homeland. Thanks to Enagic's success, the couple has been able to reinvest in the island they love, helping to support businesses ranging from restaurants to retirement homes and sports academies as part of their holistic, health-driven approach.

Enagic Prawn Farm started as a family business by the ocean in Uruma City, and officially became part of the Enagic community in January 2015. In the process, prawn farming has become one of Kangen Water's most fascinating uses.

Nutrient- and mineral-rich, pollution-free seawater has made Okinawa ideal for raising prawns. At Enagic Prawn Farm, which is tucked into a typical neighborhood, tiger prawns grow in giant open-air pools equipped with fountains that help to aerate and circulate the pristine ocean water. Prawn farmers draw Kangen Water from a small building which houses a

Kangen Water tank and Kangen machines.

Before shipping, the sweet, firm striped prawns soak in strong Kangen Water and ice water, which places the delicious crustaceans in a dormant state prior to their departure. Frozen prawns are also available, frozen instantly in acidic electrolyzed water. In both cases, Kangen Water helps the prawns stay fresh longer.

Enagic Prawn Farm produces 9,000 kilograms per year, approximately 20,000 pounds. Enagic serves these prized tiger prawns at the company's Minami-no-Hatake restaurant inside Enagic Natural Hot Spring Aroma Resort, and at Hotel Yamaichi in Okinawa. The prawns are also available for online purchase at www.satofull.jp. (Available only in Japan)

Cooking *with* Kangen

Garlic & Red Chili Shrimp with Vegetable Yellow Curry Rice

By Anna Spears

The origin of this dish was cooking something different from my normal recipes. Also trying to have my kids eat more veggies. The funny thing is that I don't eat seafood, but my husband does. It was a meal I wanted to surprise him with after work. I'm always trying different ingredients.

Ingredients:

Garlic & Red Chili Shrimp

- 1 pound shrimp peeled and deveined
- 4 garlic cloves minced
- 2 tablespoons olive oil
- 1 tablespoon dried chili flakes
- 1 tablespoon lemon juice
- 1/2 teaspoon chopped cilantro
- 1/2 teaspoon salt
- 1/2 teaspoon ground black pepper

Veggie Curry:

- 2 tablespoons olive oil
- 1 1/2 tablespoons yellow curry paste
- 2 minced garlic cloves
- 1/2 teaspoon fish sauce
- 2 teaspoons organic cane sugar
- 8 ounces coconut milk (full fat)
- 1/2 - 1 Cup 9.5 pH Kangen Water (depending on thickness of sauce)
- 2 cups fresh broccoli
- 1 cup fresh cauliflower
- 1 cup fresh snow peas
- 2 carrots peeled and chopped
- 1 medium yellow onion chopped

Instructions:

Clean veggies and rice in 11.5 pH Kangen Water

Garlic & Red Chili Shrimp:

1. Add all garlic & red chili shrimp ingredients in a bowl and mix together. Marinate shrimp for 15-20 minutes.
2. Use a cast iron skillet or grill pan on medium heat. Butter the pan.
3. Cook shrimp in batches to assure grill marks and texture. Add 8-10 shrimp at a time. Then move the cooked shrimp onto a serving plate.
4. For the rice, use instant pot or normal rice cooking instructions. 3 cups water per 1 cup rice.

Veggie Curry:

1. Heat olive oil in sauté pan in medium heat. Add onion, garlic and all veggies. Cook the veggies for about 3-5 minutes with a little salt and pepper. Then add yellow curry paste and mix well.
2. Add coconut milk, water, fish sauce and sugar. Mix well all together and cover and cook for 10 minutes.
3. Serve the vegetable yellow curry over steamed jasmine rice.
4. Add garlic & red chili shrimp on the side.

Cooking with Kangen

Vietnamese Savory Mini Pancakes By Myhanh Tran

On Vietnam's buzzing streets, you can find these savory, bite-sized pieces of gold sizzling in oil. One taste will have your mouth bursting with flavors of coconut milk, shrimp, pork, and sweet and spicy goodness. Whether as a snack or a light meal, banh khot will leave your stomach yearning for more! This mouthwatering recipe is a good introduction to the wonders of Vietnamese cuisine!

Ingredients:

- 25 large shrimp (peeled, deveined and cleaned with 11.5 pH then 9.5 pH Kangen Water)
- 3 garlic cloves (minced)
- 1/2 teaspoon salt
- 1/4 teaspoon ground black pepper
- 1 cup salted dried shrimp (soak in 11.5 pH Kangen Water for 5 minutes then drain and rinse)
- Vietnamese dipping sauce
- Assorted greens: lettuce, mustard greens, Vietnamese coriander, sorrel, perrilla and/or mint
- Vegetable oil
- Banh khot / Aebleskiver frying pan

Batter:

- 2 1/3 cup rice flour
- 1/4 cup corn starch
- 3 1/4 cup water
- 1 cup coconut milk
- 1 teaspoon turmeric powder
- 3/4 teaspoon salt

Instructions:

1. In a small bowl, combine the shrimp, garlic, salt and pepper. Marinate for at least 30 minutes.
2. Mix the flour with 9.0 pH Kangen Water.
3. Make the scallion oil by combining 1 teaspoon of vegetable oil in a microwave-safe bowl. Microwave for 30 seconds on high.
4. Whisk together all the batter ingredients.
5. Place the dried shrimp in a food processor and chop until fine. In a regular frying pan, heat a tablespoon of vegetable oil on high. Add the minced shrimp and lightly toss until completely dried and toasted. Remove from pan and set aside.
6. Heat the banh khot pan on high and add about 1/2 teaspoon of vegetable oil to each well. Make sure to coat the oil all over the inside of the wells.
7. Add about 1 tablespoon of batter to each well.
8. Quickly add shrimp on top of the batter.
9. Place a lid on the pan and let the batter cook for about 3-4 minutes.
10. Remove the lid and let it continue cooking for 1 more minute without the lid.
11. Brush a bit of scallion oil over each banh khot and add a dash of the toasted dried shrimp on top.
12. Remove the banh khot from the pan with a spoon, starting from the edges and scooping inward. If the batter breaks apart or sticks to the pan, it might not be done yet. Continue to let the batter cook until crispy on the outside before trying to remove again.
13. Serve with your favorite Vietnamese herbs and a bowl of sweet and spicy dipping sauce.

Stories of Success

Making Dreams Come True

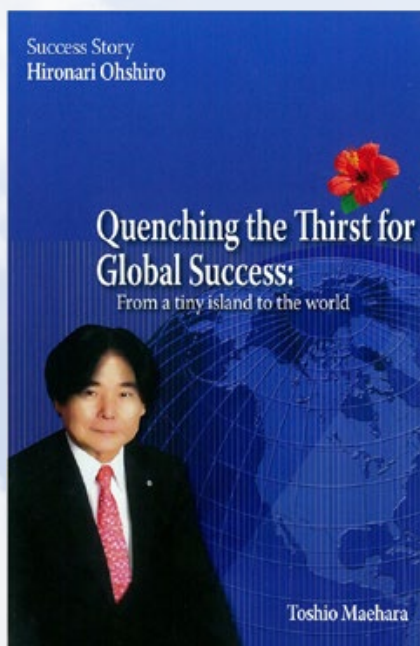

Dreams aren't for dreaming, they're for making come true." It's something Ohshiro often says. We cannot aim for success without having dreams in the first place. But many people see their dreams collapse and die. How big your dream is a reflection of how big you are. You cannot fit something large into something small. Everyone knows this to be the truth, and yet still, so often, this fundamental truth turns hollow when action is required. Having goals and working towards them is what enables us to gradually turn our small receptacle into something wider and deeper and large enough for our dreams."

Akio Morita and the men with whom he co-founded Sony had big dreams: to rebuild Japan and enrich its culture. Their endless energy meant that, after not too long, everyone in Japan—and, thanks to globalization, the world—had heard of their Sony. Steve Jobs, before his untimely death, had a dream: to

make "a dent in the universe". A space-sized dream. He wanted his identity to leave a small yet palpable mark—a dent—in the universe. But has Jobs' stellar record of innovation and discovery really only left a dent, a fingertip-sized dimple, in our universe? He passed away while still young but the legacy of his boundless dream will surely never be forgotten.

It's been said that more than 90% of successful people have dreams and set goals. These aren't the sort of dreams that pop into your head by coincidence, unexpected ideas as random as the lottery. Deep down, everyone already knows

this. We should have goals in life. We should be working toward those goals. Ohshiro did, and while there was much to overcome and many dues to pay, today he presides over a global company. It doesn't matter if you're from the tiniest island; you can still trade with the entire world. Your dreams are the propellers on which you can soar to success.

Above is an excerpt from the book *Quenching the Thirst for Global Success, the Success Story of Hironari Ohshiro*. Toshio M. (2015)

It is filled with incredible lessons, motivational stories and the actions that were taken to create Enagic.

A must-read for distributors, it is available at www.enagic.com/shop

Also available in Chinese, Italian, French, Spanish and Japanese! Contact your local branch office for details.

Congratulations to each of you for your outstanding achievement!
